Parallel Lines

After making a name for himself as a photographer in the 1950s and '60s, Willy Rizzo began creating highly acclaimed furniture. Mallett Antiques in New York recently launched a line of 10 limited-edition pieces by Rizzo, designed in the 1970s but only now put into production. Among them are the Parallel side tables. Available in editions of 12 in either mother-of-pearl and stainless steel or black lacquer and stainless steel, the signed tables are sold in pairs for \$21,250.
