# Create a Warm Welcome

'Tis the season for a house full of guests. Welcome friends and family and make them feel right at home by creating a cozy and inviting atmosphere with Philips AmbientLED bulbs. For use in a range of light fixtures from table lamps to sconces to chandeliers, Philips AmbientLED bulbs let the holidays shine bright.

## What's Possible—and Practical

with Amy Lau, interior designer  
and author of *Expressive Modern:  
The Interiors of Amy Lau*

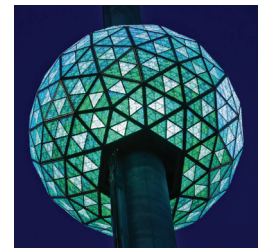

### WELCOMING ROOMS

When pulling together the guest room, remember that simple touches add up to create a comforting respite. In addition to the bed and if room allows, add in a comfortable chair or bench to provide another seating option. Provide your overnight guest with a bedside table lamp to create a soothing ambience. Select a shade that casts light downward and is two-thirds the height of the lamp's base.

### GO GREEN IN THE NEW YEAR

Before the ball drops on New Year's, resolve to go green! Explore sustainable options like bamboo flooring, or "recycle" by mixing in vintage pieces. And now that LED bulbs come in a variety of shapes and sizes, replace all the bulbs throughout your home, both indoors and out.

The best part is that with the long life of LED bulbs, you won't have to change them for years.

Philips energy efficient LEDs  
light the Times Square Ball.

## Add Ambience and Energy Efficiency

The elegant design of Philips AmbientLED bulbs provides high-quality white light and increased life when compared to less efficient incandescents and halogens. Philips' family of AmbientLED light bulbs offers a wide range of solutions for every room in the house.

Mercury- and lead-free Philips LED bulbs are better for the environment. They can reduce greenhouse gases and shrink your carbon footprint. And its beautiful light turns your room into one you'll want to stay in, while saving you money on your energy bills. Improve the ambience and energy efficiency of your home with the advanced lighting technology of Philips AmbientLED bulbs.
