

For the first time in its history, Salon Art+Design has invited an interior designer to exhibit at the fair, New York's Amy Lau. Lau's installation, "[Atmosphere by Amy Lau](#)" will present a living room designed with the theme "The New Nouveau." Lau has selected works by Art Nouveau designers of the 1940s through 1960s and paired their material with the work of contemporary designers influenced by the style period. Conceived as a unified whole, the Art Nouveau theme encompasses the aesthetics of the furniture to the hand-painted murals and the upholstery.
